VOL. XIV, NO. 7.

BLAIRMORE, ALBERTA, THURSDAY, FEBRUARY 15, 1928.

\$2.00 YEARLY

Mr. Justice Hyndman, of the appellate court, in summing up the Piccarillo-Lassandro murder case issued a warning to police officers to "take heed and realize that they must act with prudence in the use of firearms, and that it was not at every offense that they were at liberty to shoot to

bring about the capture of suspected persons." His Lordship said that Constable Lawson had no right to shoot at young Piccarillo and that his unlawful act was the immediate cause of the later tragedy which resulted in his death.

MCLEOD RE-ELECTED MAYOR

The elections on Monday resulted in the choice of Archie McLeod as mayor for a second successive term. Considerable interest was taken in the election and the largest poll in the history of the town was recorded.

Others elected were:

For Council—John A. McDonald, re-elected; Evan Morgan and William Patterson.

For School Trustees—W. B. Chappell, re-elected; Mrs. F. M. Christophers and D. A. Howe.

The returns showed the following results:

For Mayor—W. J. Bartlett 119, A. McLeod 145.

For Council—Joseph B. Harmer 131, J. A. McDonald 168, Evan Morgan 196, W. Patterson 183.

For Trustees—W. J. Bartlett, 134, W. H. Chappell 149, Mrs. F. M. Christophers 169, Mrs. H. Gibson 116, Allan Hamilton 119, D. A. Howe 146, John McPhail 72, Mrs. L. H. Putnam 108.

Suitable bouquets have been handed Messrs. Bartlett, Harmer and McPhail for having succeeded in footing the polls.

The most popular votes in the above were those of Messrs. Bartlett and Chappell—entirely unsolicited personally.

The newly constituted council will be: Mayor McLeod, Councillors J. Angus McDonald, Evan Morgan, John A. McDonald, Evan Morgan, Alex. Morency and William Patterson. The new school board—L. Dutil, W. McVey, W. H. Chappell, D. A. Howe and Mrs. F. M. Christophers.

We regret that the program of the fathers and sons' banquet held on Tuesday night has been unavoidably left over till next week.

BLAIRMORE TO PLAY EDMONTON IN FINALS

The provincial hockey finals of the Allan Cup elimination series will be played here on Saturday and Monday nights' next between Blairmore and the champions of the Edmonton city league. The local team is the only one in the Crow League qualified to play in the Allan Cup series, and whether they won the Crow league or not would have made no difference. However, they did win the Crow loop honors, losing one game out of ten, so they are undisputed champions and local fans feel confident that they will down Edmonton in the finals and be Alberta's representatives for the Allan Cup. The team is now working like a machine and their chances are first-class, but what Edmonton has remains to be seen.

For Saturday's game a special train will convey fans up from the east as far as Pincher and the game will start at 8 o'clock sharp. Monday night's game will commence at 8.30, after the arrival of the local train from the east.

The winning team will probably go to Vancouver to meet the aspirants of that city. The total goals count in all these games.

For the game Saturday, the local business places will close at 6 o'clock to enable everyone to see the game.

UNION CHURCH ANNIVERSARY

The anniversary of the union of the Baptist, Presbyterian and Methodist congregations will be celebrated at the Union church on Sunday, March 4th. Dr. G. W. Kerby, of Calgary, will be the speaker both morning and evening. On the Monday night following, Dr. Kerby will deliver his latest popular lecture.

OFFICERS OF K. OF P. INSTALLED

At the first regular meeting of Levenshione Lodge No. 22, Knights of Pythias, held on Friday night last in the L.O.O.F. hall, the officers for the ensuing term were duly installed by District Deputy Jack Griffiths, of Coleman, assisted by Past Chancellor E. A. Fowers, of Calgary; Grand Vice-Chancellor David Gillespie, of Coleman; Grand Prelate John Woods, of Coleman; G. M. at A. John Ruchton, P.C., of Coleman and Ernest Marsden, grand inside sentinel. The officers installed were as follows:

Household Hints

Valuable Recipes for the Busy Housewife

Fried Raisin Cheese Sandwiches
3 tablespoons butter, 3 slices cheese, 6 slices bread.
1/4 teaspoon salt, 1 egg.
3/4 cup milk.
3 tablespoons finely chopped Ham.

Cream butter until soft. Add raisins and spread on bread. Place one slice cheese between two slices of bread and cut in halves to make six sandwiches. Beat egg. Add milk and salt and dip each sandwich in the mixture. Fry until brown in a little melted fat. Serve immediately.

Raisin Gems

2 cups flour, 2 tablespoons sugar, 4 egg yolks, 1 1/2 cups butter.

1 tablespoon vanilla extract.

Milk or sour cream to taste.
Mix flour with butter lightly, stir yolks with sugar, add flavoring and enough milk or sour cream to make dough the consistency of pin dough. Divide in two parts; line cake pan with one part and use the other part to cover filler. Dust top with blanched chopped almonds, first spreading some of the egg yolk to make them stick.

GUARD THE BABY AGAINST COLDS

Interesting British Youth in Canada

Full Summer Course at Agricultural Schools in Alberta

A direct stimulus to British-Canadian immigration, particularly in turning the minds of England's youth, agriculturally inclined, towards farming opportunity in Canada, is contained in the announcement that Mr. E. W. Beatty, President of the Canadian Pacific Railway, is awarding a full summer course at the agricultural schools of Alberta to the four prize winners of the Young Farmers' Club of Great Britain. Few schemes, so far devised with an encouragement of desirable immigration in view, are calculated to have the permanent and lasting effect of this one, with the best and most accurate knowledge of farming conditions in the Canadian West implanted by Canada's foremost agricultural experts in youthful minds cultivated to assimilate it, and capable of disseminating their impressions among the youth of Great Britain.

The four selected boys will arrive in Canada early enough to commence their summer course at the Alberta agricultural schools in May. They will be given all thorough and comprehensive instruction in all Canadian agricultural conditions as possible in the time, visiting different areas and such agricultural fairs and exhibitions as offer. They will return to England in the fall, where their impressions have been made for them to write up their experiences in the agricultural press of the British Isles.

The benefits which may follow in the wake of this scheme are manifold. No phase of Canadian immigration has in the past produced such excellent results as that of young boys from England who have grown up with the land and rapidly absorbed its ideas and ideals. Could the settlement be induced of those well-versed agriculturists and knowledge and experience in their formative years, a tide of very valuable colonists might set in. For the main part agricultural students in the British Isles are farmers' sons, and this dissemination of accurate information on Western Canada conditions in a class Canada has always considered most eminently desirable as settlers, cannot but be productive of satisfactory results.

Fertile Land in The Pas

Reclamation of Many Acres of Land in the Carrot River Valley

Three survey parties connected with the Canadian Branch of Interior have just returned from the Carrot River valley triangle, adjacent to the Pas. Three years have now been spent obtaining information on the reclamation of some eight hundred thousand acres of land in the Carrot River valley, which is reported by these engineers to be the richest and most fertile soil known in Western Canada. It is understood that further reconnaissance survey work will be proceeded with this summer in the vicinity of the Demaree river, on the Saskatchewan River, at the head of Lake Winnipeg. Here, it is claimed by experts, locks will be so constructed as to regulate the entire flooded area tributary to the Saskatchewan River as far west as Prince Albert. There the drop the water would have at these rapids is about 25 feet which is said to be ample for the successful drainage of the whole Carrot River valley triangle.

Only the unfortunates endure the agony of corns. The knowing ones apply Holliday's Corn Remover and get relief.

Canada Sets An Example

Washington Interested in Attention Paid to Agriculture in Canadian House

More than passing attention has been attracted at Washington to the recent address read by Governor-General Hyatt at the opening of Parliament in Ottawa. The extent to which the speech drew out the need of agriculture in Canada and to help the farmers of the Dominion has been noticed by leaders of the farm bloc in Congress and by leaders in farmers' organizations in the United States.

Comment among the farm bloc on the fact that the speech directed the attention of Parliament to a series of important measures for the benefit of Canadian agriculture is that it sets a good example for many of the high officials in Washington and leaders in the senate, some of whom fail to take interest in United States agriculture. It is further pointed out that with Canadian agriculture being given the attention of the Canadian Government, the United States Government will find itself more and more under the necessity of doing the same thing if the United States farmer is to keep pace with his competitors. Not to be overlooked, his competitors, many over, is the fact that Argentina and some other South American countries are obtaining by immigration some of the best agricultural population of Northern Europe. The inevitable result will be the development of a great agricultural industry in South America.

Value of Prairie Products

Value of Production Over Thirty-Nine Million Dollars More than Previous Year

A remarkable value of \$30,252,900 is put upon the crop yield, livestock sales and dairy products of the prairie provinces actually sold from September to December 30, 1932, by the "Western Free Press." This is \$15,000,000 more than was estimated for 1931 by the same authority. Of this total for 1932, \$24,415,000 is for grain crops, of which \$18,145,000 is for wheat, at an average net price of 85 cents per bushel; \$5,850,000 for barley; \$15,015,000 for oats; \$7,727,542 for eggs; \$507,600 for wool; and \$2,764,000 for root crops.

I can't say enough for the wonderful relief that I am glad to recommend it to others.—Mrs. A. Geddes, 60 Broad St., All drugists.

Against New Fangled Ideas

Ontario Farmers Severely Criticize Motion Picture Shows

Provincial farm associations are discussing general improvements of rural life and the elimination of undesirable features in Ontario. More than a score of delegates from Perth, Huron and Middlesex counties, representing 15 of the leading agricultural societies of Ontario, attended District No. 3 meeting, and spoke in this strain. Motion pictures have come in for strong criticism; delegates voicing the opinion that movies had a greater adverse effect on children than many of the games of chance and skill which make the rounds of the Ontario fairs. A proposal was made the association to request Hon. Peter Smith, Provincial Treasurer, to place a heavier tax on movies.

Men, Money and Management

Lack of Wise Management Invariably Means Failure

In a recent address before thousands of railway employees, President C. H. Markham, of the Illinois Central Railroad, broke away from the stereotyped phrase of "capital and labor" referred to in this phase of the industrial world as "Men and money partners in the transportation business." The Financial Post says this is a great improvement over the usual form of expression and helps to do some clear thinking on this subject.

Wage earners and the money invested in any enterprise are, indeed, partners in that business, but, as Commercial West points out, there is a third element, and that is management. Lack of wise management means failure, even though plenty of money is available and workers most efficient. The manager may come from the so-called capitalist class, or he may work up from the ranks of the wage earner, and the latter course is much more common than the other. The manager, strictly speaking, is neither labor nor capitalist. His strength lies neither in his hands nor in his bank roll, but rather in his mental efficiency.

Dyed A Sweater And Skirt With Diamond Dyes

Every "Diamond Dyes" package tells how to dye or tint any wool, faded garment or drapery a new rich color that will not stretch, spot, fade, or run. Perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. YOUR JOB PRINTING

It has come to our notice of late that several good sized orders for office stationery have been contracted for to outside parties without our having even been asked for prices. Further investigation reveals that the price, made on quantity, was the means of securing the business, and in justification to ourselves we wish to impress upon friends and customers that we stand at all times ready and anxious to meet all competition that is submitted by outside parties on printing jobs. We have the equipment and usually the stock to satisfactorily and quickly execute all work that is submitted to us at the best going prices, and we are anxious to retain such work at home instead of seeing it go out of town. We find also that we are usually asked to quote on small quantities, whereas the outside salesman succeeds in his efforts by quoting on quantity lots, and on which the difference in cost per 1000 a material. The initial costs of set up and composition is the same in lots of 50 or 5000 and in this respect the purchaser is misled by the quotations of the outside salesman who submits the price per thousand in quantities of five thousand or more and thus gets away with the order. His quotations are also subject to the sales tax of 1/2 per cent and the express charges usually about another 5 per cent, which must be added to the price and paid by the purchaser. On the whole it is not cheaper, nor does his concern contribute to the upkeep of the town in which his sales are made. We are therefore requesting that all such work be submitted to us for our estimates and we assure you that the money derived therefrom will be spent to the benefit of the town, without cost, and perhaps, with a saving to you.—E.J.

THE TWO DISSENTERS

"Now," said the evangelist, "I want all of you who wish to go to heaven to stand up." All arose with the exception of one man, who was asleep. When the congregation had resumed their seats, the slumberer rubbed his eyes just in time to hear the preacher say: "And if there are any who do not wish to go there, I want to see them rise." The dreamy one rose to his feet, stared hard at those around him, and said: "Excuse me, sir, I'm not sure what you're voting about, but whatever it is you and I seem to be a helpless minority."

A CORRECTION

Macleod, Alberta,
February 9th, 1923.

The Editor,

Blairmore Enterprise,
Blairmore, Alberta.

Dear Sir:

My attention has been called by former Sergt. Caswell to an apparent error in my open letter to the Attorney-General dated 13th January, 1923, published in the issue of the Blairmore Enterprise of January 18th, 1923. The error occurs in paragraph numbered thirty-three in which I say that Sergt. Caswell was dismissed from the Alberta Provincial Police about October 1st. Mr. Caswell draws my attention to the fact that he was not dismissed. He was offered a transfer to Lomond, Alberta, and preferred to resign rather than take the transfer. He then resigned and was given a "Very Good" Discharge by the Superintendent of Police.

I am very pleased indeed to make this correction in justice to Mr. Caswell.

Yours very truly,

J. W. McDONALD.

ALL BRITISH PRODUCTION

The first all-British motion picture production to be received in the province for some time was reviewed by the censor board the past week. The production comes from the Samuelson studios in Britain, and marks another effort on the part of British producers to rival their American competitors. In many ways the production, it is safe to say, equals and even surpasses some of the great American productions like the Birth of a Nation and Intolerance. The plot of the production covers the period of the reign of Queen Victoria from her coronation to her 60-year jubilee in 1887. The settings, costumes, etc., display an amazing exactness as to historical detail.

ENCOURAGE SETTLEMENT

IMPERIAL EX-SOLDIERS IN THE DOMINIONS

OTTAWA.—Major E. J. Ashton D.S.O., of the Soldier Settlement Board, has left for England to make arrangements for handling the fund created by benevolent ex-soldier associations for the settlement of Imperial ex-soldiers on farms in Canada. Applicants were required to deposit \$200 each and a good deal of money was put up on behalf of men who did not avail themselves of the opportunity provided in the Act. Arrangements have been made by which these monies may be used on behalf of other Imperials who may be settlers under the Board.

It has been brought to the attention of the government that there are some 5,000 Imperial ex-officers in Great Britain with capital aggregating from \$700 to \$2,000 each, who are contemplating settlement in some of the overseas dominions. In order to encourage the settlement of as many of these men in Canada as possible the government has instructed the Board to have Major Ashton, while he is in England, place before these ex-officers and ex-soldiers the opportunities and facilities which Canada offers for the settlement of ex-soldiers.

CAN ONLY LEND MORAL SUPPORT

EDMONTON, Feb. 12.—Canadian Press dispatches today intimating that the Alberta attorney-general's department might take steps to institute suit against Picciarello's estate to secure damages for the widow of the late Const. Lawson, murdered by Picciarello and the Lassandro woman are hardly right on the point. While the attorney-general's department would lend its moral support in such a proceeding, Hon. Mr. Brownlee himself intimates that it would not be proper for the department to start such proceedings.

MAYOR HARDIE POINTS TO LIQUOR ACT ENFORCEMENT

The question of the enforcement of the Liquor Act came into discussion at a recent meeting of the Lethbridge city council following the reading of the resolution from the Social Service League in respect to the appointment of the new chief of police that he be in sympathy with the enforcement of the Liquor Act. Ald. Lovering expressed himself strongly in saying that the act was not enforced in the city. The mayor retorted by saying that so far as regarded the enforcement of the Liquor Act, it was enforced better in Lethbridge than in any other city in the province. If there was any infraction of the Act, said the mayor, it was not the fault of the police, but the magistrate's in regard to convictions and the loopholes which the Liquor Act gave for those breaking it to escape, as the law was accustomed to be interpreted. Very few of the judges and magistrates were in sympathy with the Liquor Act. The prison sentence in case of second and third convictions was not imposed for the simple reason that a man once convicted disposed of his business to another and when the same premises were raided by the police it was another individual who appeared before the magistrate. He got away from the prison sentence in that his was the first offence under the Act although the premises had been used for the sale of liquor before. Persons brought up under the new Restaurant Act to have their licenses cancelled for previous convictions under the Liquor Act had pleaded guilty under the new Act, but had appealed to test the powers of the Act. If instead of writing anonymous letters and making general statements people were not afraid to declare themselves and to lay the precise information before him, he would be only too willing to set the law in motion.

Speaking of the difficulty of enforcing the Liquor Act, the mayor said that the very people who were condemning its infraction were in the habit of drinking whiskey, in spite of all their protestations against liquor. In spite of the statement to the contrary, he referred to the resolution of the Social Service League as containing a reflection on the administration of the Liquor Act as it has been administered in the city by the duly elected representatives of the people.

LIFE WAS MISERY!

"I was reading the other day about Neurasthenia, about the large number of people who are troubled with this disease. I just want my wife had. I had miserable all the time and was actually depressed. She was wicker in the morning and telling that something dreadful was going to happen that day. Life was nothing but misery for me. I was so depressed that I would lose my appetite for food. She was terrible and crazy most of the time. If she was crossed in any way, she would immediately work herself up into a violent tantrum. This worried me because she was always a kind and gentle disposition and neither water nor said or done seemed to irritate her. I spoke to our family doctor about her and he said that my trouble was neurasthenia and that if she would try and forget all her depression and look at the bright side of life she would be all right. Of course I didn't do that. I tried because I knew she would get into all kinds of trouble with the same result. I was recommended to me to write to state that it is the best of all tonics. Since then my wife has changed completely. She is always ready for her work and work is no burden. I feel that I should like to recommend Carnal to anyone who is in need of a tonic or a body builder. Excuse me for writing this letter but I want you to accept my thanks for that wonderful tonic known as Carnal." — Mr. J. Toronto.

Take Down The Bars!

An Ottawa despatch appearing recently in the press sets forth the disturbing fact that for the nine months ending December 31st last, immigration to Canada decreased 25 per cent, as compared with the corresponding nine months of 1921. All changes of immigration were affected, British immigrants numbering 5,000 less, United States 6,000, and other countries 6,000, a total decline of 20,000.

This is the result four years after the war was concluded under the restrictive laws imposed on the country by reason of war and afterwar conditions. If certain countries in Europe wish to get out as if the war is still in progress, we in Canada can hardly prevent it, but surely in our own interests we should rescind our war enactments and strive with all our might to restore, as far as possible, the normal conditions and activities of peace.

Fortunately, evidence is not lacking that, whatever the leaders of organized labor unions may say or do, the masses of the Canadian people are awakening to the fact that, instead of being benefitted, they are being victimized through the present virtual prohibition of immigration to Canada. Nobody in his senses advocates the removal of all bars to immigration and a return to conditions which at one time prevailed. There must continue to be strict and absolute prohibition of the entry into Canada of the physically unfit, of the criminal class, and mentally unsound, the moral degenerates, and those professionally agitators of the communistic and "Red" groups. Canada offers no place for such, who could only be a source of weakness and not of strength, terrible and expensive liabilities and not national assets.

But the present policy of refusing admittance to all but those who agree and are able to at once settle on the land or engage in service as domestics calls for immediate modification. Not only does the existing law practically shut out all others, but for years there has been a popular belief that Canada should confine its efforts to the obtaining of these two classes among people of the Anglo-Saxon race, and principally from the British Isles. Yet it is a well known fact that the number of available immigrants from the British Isles of the agricultural and domestic class is extremely limited. In other words, we are willing to accept what we cannot get and refuse to take good workers in other walks of life.

The trouble with agriculture in Canada today is the high cost of production and marketing. There is little prospect of the selling price of agricultural products increasing to a figure sufficiently large to bear these heavy costs and yet leave a reasonable margin of profit to the farmer. Betterment can only be effected through a reduction in production and marketing costs. How is such betterment to be brought about so long as the entire labor market is kept as a close preserve for organized labor, and the immigration policy is dictated by and framed to suit the labor leader?

Railway and other transportation charges cannot be materially reduced so long as our public service companies are compelled to guard unreasonably short hours, pay unreasonably high wages, employ several men to do the work of which one is capable, and are largely precluded from recruiting new and efficient employees through the engagement of apprentices? How can the costs of implements, clothing, building materials of all kinds, and other prime necessities of the farmer be lowered when the supply of common laborers is so essential to the carrying on of all and any industry is completely shut off?

At the recent annual convention of the Saskatchewan Grain Growers' Association, some home truths were stated by G. F. Chipman, editor of the Grain Growers' Guide, in regard to this subject. He urged selective immigration as necessary, but immigration selected to meet all the needs of the land. Present economic conditions, Mr. Chipman pointed out, were the result of the boom which preceded prior to the war, followed by the war with its disastrous prosperity. During that period of inflation we had created a plant in the shape of railways, industries, public buildings and services, all on borrowed money, capable of taking care of a much larger population than Western Canada possessed.

The burden is too great for the present small population. The created plant should be weeded to suit the land, and that desirable and necessary condition can only be brought about through increase in population, and that increase must be obtained through immigration.

Common labor is necessary if skilled labor is to be provided with remunerative and steady employment. Population is essential if there is to be a sufficiently large buying power to consume the products of labor. Yet present immigration laws have had no effect upon the supply of common labor—depletes it. The source of common labor largely has been immigration of sturdy, ambitious workers from other nations where opportunities are limited or almost entirely withheld from the masses. These men and women came to Canada in the past glad to work, able to work and grateful for the opportunity. Canada absorbed them in the past and was prosperous. Their immigration now would assist in bringing about a revival of business. Why, then, close the door to them?

Vancouver Grain Movement

Fifteen million bushels of grain is now the estimate for the Vancouver grain movement for the season 1922-23. To date Europe has taken 4,197,000 bushels, with 4,366,155 bushels yet to load. The Orient has taken 423,000 bushels, with 1,286,062 bushels yet to be despatched.

Gigantic Plane

Will Carry 200 Passengers and Ten Tons of Mail and Freight.

The prediction that in the not far distant future a regular air passenger service will bring New York within twelve hours of London, was made by Maj.-Gen. Sir Wm. Branker, addressing the third annual air conference in the Guild Hall, London.

Sir William said estimates had already been worked out for a new type of aircraft capable of carrying more than 200 passengers and ten tons of mail and other freight, these crafts being designed to operate over long distances.

THE HUMAN FACTORY

Its Motive Power Is Rich, Red Blood

The human body is the busiest factory in the world. There is no eight-hour day, no slack season, no holidays, no cessation of its labor at any time. Day and night work is carried on in the workshop of your body and it never ceases until the engine—your heart—stops forever. The factory of your body has its motive power without which it would cease at once. That power is rich, red, healthy blood, which keeps your whole system efficient and drives away all disease that may attack it. Often, however, the blood begins to fail and becomes thin and poor. It becomes loaded with waste and charged with poisons. Then it is that your body's workshop gets wrong; your physical machinery becomes disorganized, and you fall ill. You become anemic, perhaps. The nerves break down, for you begin to suffer from indigestion, neurasthenia, general debility, with pains in the back, head or side. In this condition of bloodlessness Dr. Williams' Pink Pills are just what you need. Their one mission is to make rich, red blood which brings health and energy to every part of the body. Mr. Raymond Wolberg, of Montreal, tells what these pills did for him as follows: "My blood was thin and watery, and I was in a bad run-down condition. Pimples broke out on my body which caused me much discomfort. I would catch cold easily, which aggravated my condition. My brother advised me to try Dr. Williams' Pink Pills and after taking about eight boxes I felt that I was again a well man. I have since recommended the pills with good results to others." You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

London Honors Flower Girl

Walt of the Street Was Given Church Funeral

Scenes such as Dickens would have marked the funeral of Fannie Collins. Fannie was only a waif of the streets, a "flower girl" who for thirty-five years had sat beside her basket selling flowers in Ladgate Circus, but she had so impressed her fellows by her usefulness and had proved such a tower of strength to St. Clement's Dames Church, that she had a public funeral.

Outside the church a hundred flower girls formed a guard of honor and showered white narcissus as the coffin was borne past. Within, every pew was decorated with snowdrops and bore also the orange and lemonade of the nursery rhyme with which St. Clement's will always be associated. Fannie's basket and hawkers' badges were laid on the chancel steps, and near them were two magnificent crosses of white and red flowers. The service over, the funeral procession marched down Fleet Street and halted for a brief prayer by Fannie's old stand. It was a fit passing for a Londoner.

The Gun Men

Law Enforcement the Only Real Protection to the Citizen

Sir Basil Thompson, former Chief of South West, recently in Chicago, said what most Americans knew to be true. An English crook does not work with a gun. If he is caught with it he goes in for life. He stays in for life. For this reason the English either keep his life when he is caught by a crook. The English are called a law-abiding people. They make their laws strict against criminals. That would seem to be the easiest possible way to be law-abiding. It does not cost the peaceful citizen anything, and it adds much to the pleasure, profit and length of life. Americans evidently prefer that there should be no prohibition of the manufacture of the one-handed gun, no real penalty for the carrying of it, and a doubtful penalty for the use of it. The majority of Americans are as law-abiding as the majority of Englishmen, but they are not law-enforcing—Chicago Tribune.

HEART PALPITATED And Was Short Of Breath

Through one cause or another a large majority of people are troubled, more or less, with some form of heart trouble. Many people may be unaware of having anything wrong with their heart till some little excitement over work or worry starts it to palpitate and throb, skip beats, beat fast for a time and then to slow as if to seem almost to stop, then it causes great anxiety and alarm.

To all such sufferers

MILBURN'S HEART AND NERVE PILLS will give prompt and permanent relief.

Mr. Alice Bishop, 15 Hawtorn, Hamilton, Ont., writes: "I take pleasure in recommending Milburn's Heart and Nerve Pills to all persons who have been troubled. I suffered from palpitation of the heart and shortness of breath; my heart would skip beats and in the night, at times, I would have to sit up to get my breath. I could not go to sleep without my heart fluttering and my nerves were all unstrung, but since using your famous Pills I have felt a different person."

Butter Records

Honors Taken by Alberta in Canada-Wide Creamery Butter Contests

Alberta has demonstrated the fact that it holds an enviable place in the butter industry of the west. This was shown at the Western Canada Dairy Convention, when the results of the butter making contests were announced. In the Canada-wide creamery butter contest, held by the association, in the solid pack class, shipped not later than September 9, the first prize was taken by W. Hanson, of Lacombe, with 97 points to his credit. He was closely followed by the Edmonton City Dairy with 96.7 and G. Severson, Calgary, 96.5.

In the October pack, Mr. Hanson was again first with 96.4 points. He was tied in this case, however, with Shoal Lake, Manitoba.

There was keen competition in the De Laval international contest for the silver trophy, the first prize going to Manitoba with an aggregate of 4,731.9 points; Alberta was second with only just one point less than Manitoba, while Saskatchewan scored 4,676.5 points.

Alberta again was prominent in convention creamery butter exhibit. This resulted as follows: Edmonton City Dairy, 573.8; G. Severson, Calgary, 514.3; W. Hanson, Lacombe, 574.2; J. P. Donald, Delburne, 573.3; C. Anderson, Camrose, 571.4; Red Deer Dairy, 570.4; and H. Hanson, Eckville, 569.9.

Voice Carried Across Atlantic By Radio

Words Wafted Over 3,400 Miles Are Heard Distinctly

Officials of the American Telegraph and Telephone Company sent messages and made speeches by wireless telephone to Southampton, Eng., when William Marconi, inventor of the radio, and many others listened and called back that the words, with few exceptions, were distinctly heard.

Scattering words and phrases have been wirelessly across the ocean before, but thousands of words were sent over 3,400 miles recently and heard as clearly with the distinctness of messages over the wire from Times Square to Herald Square.

The deluge of words crossed the ocean so steadily and easily that the group of auditors on the other side began to complain that it was something of a bore. One cable message demanded more "color" in the messages being sent to the other side. Another cable message from the listeners in England said that they were tired of the American accent and asked to hear the voice of a Britisher.

Wireless telephone communication to England had been established only a few minutes before the British Lion's tail was twisted by it. President Thayer, elected to the war 150 years ago in a popular manner, but added daffier and kind words for England, including the belief that if this type of communication had existed in 1775 there would have been no trouble.

The first message was sent by President Thayer of the A. A. and T. Co. at exactly 4 o'clock. At 10:10 the following message from Marconi was received:

"I have just listened to your radio-telephonic message, which I have heard distinctly, and congratulate you and all those connected with the research which has led to this achievement."

AT 73 SHE THANKS TANLAC FOR HEALTH

Has Found It Quick and Unfailing Source of Relief Says Calgary Woman

That Tanlac is the ideal strength and body builder for elderly people has been conclusively proved by the statements of those who have tested its remarkable merits. Further evidence of this fact is furnished by the experience of Mrs. C. J. Harris, 228 13th Ave. East, Calgary, Alberta, who is now seventy-three years of age.

"Tanlac has been my stand-by now for three or four years," says Mrs. Harris. "Before I knew about it, I had been feeling weak and old and running down for a long time. My nerves were bad, I couldn't sleep and just seemed to be on a general decline. My strength and energy nearly all left me and some days I could hardly get around at all."

"It was astonishing how quickly Tanlac had me feeling right again. I began to pick right up and finished my fourth bottle feeling fine. Now whenever I begin to feel the least bit tired or run-down I just get a bottle of Tanlac and soon I am all right again."

Tanlac is for sale by all good druggists. Over 35-million bottles sold.

The largest honey crop in the history of British Columbia was harvested in 1922, registering as it did a value of \$177,320, at wholesale prices. This year's output represents the remarkable average of 61 pounds per hive, that is 61 pounds per hive from 11,591 hives in 2,143 apiaries. Last year the average was 39 pounds per hive, from 10,339 hives in 2,072 apiaries. In 11 years the province's output has grown from 20 tons to 355 tons.

The provincial Three-Linkers are in session in Calgary this week. The Grand Lodge session opened this morning, with Grand Master E. L. Cope, of Medicine Hat, presiding.

Bachelors balls are the order of the day at Coleman and the biggest ever was witnessed at the opera house there on Friday night last. The attendance was unusually large, while the ladies were considerably in the majority.

Guests at the Greenhill hotel were listeners-in on the radio on Tuesday afternoon to the Calgary Herald program, which included a very interesting lecture by Commissioner Holder, of the Salvation Army, on the work of the Army throughout the world.

The notorious John Sakas, of Hillcrest, was a guest at the Cosmopolitan for a few hours last night. John says that Hillcrest is going to build two arenas of the size of Blairmore's each costing in the neighborhood of \$11,000, and that the people of Peaceful Valley will also send monthly subscriptions to Lethbridge to help Mark Rogers and other poor chaps down there to finance their new arena. John believes in the old-time booster — a number ten shoe properly placed.

COWLEY HAPPENINGS

At present we are having another cold spell of weather, the thermometer hovering around thirty degrees below.

In spite of the cold weather and bad roads, several of the local folks went to Pincher Creek on Tuesday night to attend the confetti dance.

Mr. and Mrs. George Ritton went to Calgary on Tuesday night's train. Mr. Ritton is a representative to the convention of the L.O.O.F. Mrs. Ritton will consult an eye specialist while there.

The bachelors' dance held on Thursday was well attended, in spite of the short time in which it was advertised. Everyone seemed to enter into the spirit of the occasion and have a real good time.

The Ladies' Aid gave a silver tea on Tuesday afternoon. The program preceding the tea serving was very much enjoyed. Owing to the cold, the crowd was somewhat smaller than if otherwise would have been. A neat little sum was collected.

An American visiting Ireland asked a man servant at a tavern: "How many mails do you have a day here?" The servant replied: "Three—breakfast, lunch and dinner."

Auntie: "Why don't you try to skate, Bobbie? It's the thing to make you smart."

Bobby: "Yes, but it makes me smart too much in one place."

Deserves a knock! We notice that most of the Lethbridge arena tickets on sale here this week were the product of a Montreal printing house. Some small fry evidently connected with the management of either the Lethbridge arena or hockey club.

If the kiddie should put a bean up his nose, put a small amount of cayenne pepper on his upper lip, and he will sneeze it out. Never try to dig for it or you will only push it further into his nose. The same treatment would apply in the case of a potato or onion or orange.

Hon. Alex. Ross, minister of public works, is a believer in a 24-hour-holiday-a-week for workmen. He should be a worker and dependent upon conditions tolerated very often by miners, giving an average of considerably more than that size holiday throughout the year.

Effective March 1st, the following fees will be collected for the certification of Consular invoices upon shipments to the United States: Ordinary invoices, \$2.50 U. S. Currency, or \$2.60 Canadian Currency; R. A. G. invoices, \$1.00 U. S. Currency, or \$1.04 Canadian Currency.

Under section 481, Paragraph 10, of the Tariff Act of 1923 (known as the Forney Act), it is now required that if the preparation of Consular Invoices on the blue form the market value of the merchandise on date of exportation be shown, such information to appear on the margin of the invoice. Shippers will please observe this provision in future.

We read of a town in eastern Canada being so located as to be practically "flooded" with sunshine throughout the entire year. Gee, that's nothing, there are towns in the west practically flooded with moonshine since pre-prohibition days.

A fathers and sons hockey game will be staged at the arena tonight. On the side we learn that the fathers' team includes, such adepts as J. J. Purvis, L. H. Putnam, Thomas Scott, Dawson, Jack McPhail, Allan Hamilton, Tiny Garrison and Joe Foreman, all eligible heavyweights; while the boys' will be purely amateurs of the teen age.

Alex. McVerny, left for Calgary on Monday night, where he is attending the annual sessions of the I. O. O. F. as representative of Blairmore Lodge.

EXCURSION TO LETHBRIDGE

About three hundred fans accompanied the Blairmore hockey team to Lethbridge yesterday by special train, leaving here at 3 and reaching the prairie city at 6.15. Had it not been for the extreme cold weather it had been double that number would have taken in the trip.

The attendance at the Lethbridge arena was not as large as would be expected, and it was plain to be seen that the same interest in hockey is not taken in the city as in the smaller mining towns.

The game started at 8.40 in charge of Referee Tommy Clark, and throughout was fairly clean.

Pruden opened the scoring early in the opening period and recorded number two a few minutes later, the period ending 2-0 in Blairmore's favor.

Lethbridge staged some excellent play in the opening of the second, and were rewarded by a goal scored by Freddie Henderson, unassisted, except by Blairmore's goalie. A few minutes later Harvey notched another for Blairmore.

Mackie and Rennicks each scored before the finish, the game ending 5 to 1 in Blairmore's favor.

Returning, the train pulled out at 11.30, reaching Blairmore at 3.30 a.m. Very few from intermediate towns took in the trip, only two from Coleman, five from Hillcrest, none from Bellevue, one from Lundbreck, one from Cowley and two from Pincher Creek.

PREPAREDNESS

By Dr. Frank Crane.

John Hays Hammond, Jr., inventor and engineer, warns the United States against saving money on appropriations for scientific work at the expense of national safety.

It is, therefore, his opinion that no effort should be spared in developing scientific efficiency in war, that we may be ready for the next conflict.

This is the usual argument. It sounds convincing. Its premise may be correct, however, but its conclusion is faulty.

There is no doubt that a war may come; and that it is the part of wisdom to be prepared.

The logic breaks down as to the method by which we should prepare.

It is assumed that the best way to make the nation safe is to develop efficiency in destruction to such a point that we may be able to out-kill and out-destroy the enemy.

But that sort of program never did build a nation and never will.

Nations are defended by their hands, by their brains, by their intelligence; but not by force.

If we would use our brains and sense and devote our energies toward federating the world and devising some plan to settle disputes other than by armies, we should be taking the only means for the prevention of war.

This does not mean that we should not have an adequate army and navy and should not be properly prepared by force to resist an invasion made by force.

It means that we should spend more money, thought and effort in perfecting some system of international agreement than in perpetuating the old system of national resistance.

We insure the peace and safety of the city, not by heavily arming our citizens, but by disarming all, except the policemen, and by strengthening the police.

World safety can only come in the way that city safety comes—by abandoning the principle of private protection and delegating force to the courts and the police.

It is as much a crime against sense for one nation to go heavily armed as for one citizen to go heavily armed.

The way out of war is by intelligent co-operation among nations. There is no other way.

For each nation to arm itself so heavily that no other nation or combination can conquer it is absurd and has never worked out.

PUBLIC NOTICE

By the Board of Trustees of The Blairmore School District No. 628 of the Province of Alberta.

WHEREAS it is deemed expedient by the Board of Trustees of the Blairmore School District No. 628 of the Province of Alberta, that the sum of Fourteen Thousand Dollars should be borrowed on the security of the said District by the issue of Debentures repayable to the bearer in Ten equal consecutive annual instalments with interest at the rate of not more than eight per centum per annum for the following purposes, namely:

That of erecting, equipping and furnishing a new two-room addition to the present school building.

THEREFORE notice is hereby given by the Board of the said District that unless a poll of the ratepayers of the said district for and against the said debenture loan is demanded as provided by The School Ordinance the said Board will apply to the Board of Public Utility Commissioners for authorization to borrow the said sum by debentures.

Of which all persons interested are hereby notified, and they are required to govern themselves accordingly.

L. DUTIL, Chairman.

Dated at Blairmore, Alberta, this Seventh day of February, 1924.

INSTRUCTIONS TO RATEPAYERS

In rural districts a poll on debenture loan may be demanded by any four ratepayers if the loan exceeds \$2000 or if the loan is not for the purpose of building a first school house.

In town and village districts a poll may be demanded on any debenture loan by twenty and ten ratepayers respectively.

Every demand for a poll should be delivered to the Secretary of the District or in his absence to the chairman of the board within fifteen days from the date of posting these notices.

The certified copy of this demand should be forthwith forwarded to the Board of Public Utility Commissioners of Alberta at Edmonton.

FIRST AID EXAMINATIONS

An examination was held on Sunday, February 11th, when thirteen candidates presented themselves for examination in first aid.

The examination was conducted by Dr. H. A. McDonald, M.D., representing the St. John Ambulance Association, whilst Mr. William White, captain of the Coleman Miners' First Aid team, champions of Canada in the miners' section, represented the Workmen's Compensation Board of Alberta.

Certificates and medallions will be presented to the successful candidates by the St. John Ambulance Association; also certificates by the Workmen's Compensation Board.

It is the intention to start a new class on Sunday morning next, at 11 o'clock, and those desirous of taking advantage of that time at the central school house. The class is open to all males above the age of sixteen years. For those attending the class an examination will be held some time towards the end of April. The only charge will be the cost of books and bandages, which is one dollar, tuition being given free of charge.

Fifty below zero last night reminded us that spring wasn't here.
